

WAX MUSEUM

of important people who shaped our society today
Presented by Kinetic Academy's Second Graders

Driving Question:

How can we, as historical curators, showcase important world figures that have positively impacted our society in an effective way to our community?

Project Idea:

In this project, students will research an important figure that has shaped our society in a meaningful way. Many museums are losing business due to lack of attendance. Therefore, our students are going to create a showcase to represent these important figures and educate our community on their meaningful contributions to society.

Making the product public:

Each student will have the opportunity to choose an important figure to research. After research is concluded, they will create a snapshot of the important figure's life and the contributions they provided the world. Students will practice public speaking and present their knowledge through the Wax Museum to KA community members, families, and outside community members.
